

Happy Mother's Day

Father, I approach Your throne on behalf of each of us mothers and grandmothers in different stages of our journey. I believe it's our highest calling from You as women. You give us the opportunity to partner with You in raising the next generation of Christ-followers and even our precious grandchildren. Thank You for believing in us even when we don't feel we are making a difference. May we remember we are but stewards of Your children and only Your Spirit can produce change in the hearts of each one.

Encourage our soul and speak life into this most significant role of motherhood. Be our daily bread, our living water, and our source of spiritual and physical strength for our journey. May Your grace flow through us and may our homes reflect an aroma of peace, worship, and safety from the world for our families and for You, O Lord. In the powerful and precious name of Jesus I pray, Amen.
