*Apply your heart to instruction and
 your ears to words of knowledge.*
 Proverbs 23:12

We are never too old to learn
 something new. Learning can open
 our world to new opportunities!

Technology scares many of us but
 learning how to use a smartphone,
 iPad, laptop or computer can open up
 opportunities to see and communicate
 with family and friends in a whole
 new way. Friends, family, and aids
 can teach you how to use this new
 technology. We can learn one new
 "feature" each week and practice
 before our next "lesson!"

I have one senior friend who lives by
 herself but has learned how to text on
 her phone. She texts fun,
 encouragement to others. What a
 ministry she has! - *Christine*

Indeed, me, too!

Morning little sister 🙏!!
 Stopping for a quick HUG. I'm
 fine !
 Please stay safe! Remember,
 Satan can throw all the stones
 he wants but we're safe
 through Jesus and none of the
 stones can hit his target! LOVE
 YOU!
